

Concrete Hoppers

Concrete Hoppers - The self-dumping hopper attachment can automatically start to both dump and release when the bumper release contacts the side of a dumpster. After dumping is completed, the hopper can go back to original locked and upright position. This piece of equipment is even obtainable along with a cable that enables operation from the seat of the forklift in order to have the choice of manually dumping the hopper. There is a locking chain provided in order to secure the hopper to the fork truck. This particular product is made with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper even has a blue powder coat finish to be able to maintain durability.
