

## **Forklift Electrical Part**

Electrical Parts for Forklifts - Forklifts and different forklifts can have particular labels used in certain hazardous locations. The mark indicates that this particular model of lift truck meets the minimum standards of ANSI/UL 553 for electric lift trucks or ANSI/UL 558 meant for internal combustion engine forklifts.

The application for labels for lift forklifts can be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Areas or Use, Maintenance and Operation, and Type Designations. Consult your local insurance carrier and Fire Marshall for additional information about the approved uses of industrial powered lift trucks in your application.

If the particular forklift satisfies the outlined criteria, labels can be placed. A labeled lift truck will show the type of designation put on the nameplate and will have a properly corresponding label attached.
