

Meritor Part

Meritor Part - The Meritor Business is a leading international supplier established upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems with various modules and parts to the original machine manufacturers and aftermarket equipment within the transportation and industrial sectors.

Meritor values the requirements of their clients to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their international operations. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred people, Meritor promotes collaboration and innovation amongst a team of experienced professionals.

Meritor strongly believes in only hiring future focused staff. These top-caliber individuals could rapidly adapt to changing environments and freely exhibit the level of commitment and performance considered necessary to attain results for the competitive market environment. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides their staff various opportunities for professional and personal development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise drivelines, axles, suspension and braking systems meant for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of their worldwide engineering workers.

Meritor's dynamic and customer focused Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located all around the world in 19 countries and in 5 different continents.

They have their supplier network that is specifically located to be able to support the growth of the business. Each regional team has globally supported quality systems, initiatives and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in every aspect of the trade. The DFSS or also referred to as Design for Six Sigma ensures product reliability within each and every region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business techniques and apply lean methods.
